

LipoMCT™

Advanced Lipid Carrier System

Synergistic Blend of MCT Oil & Phospholipid

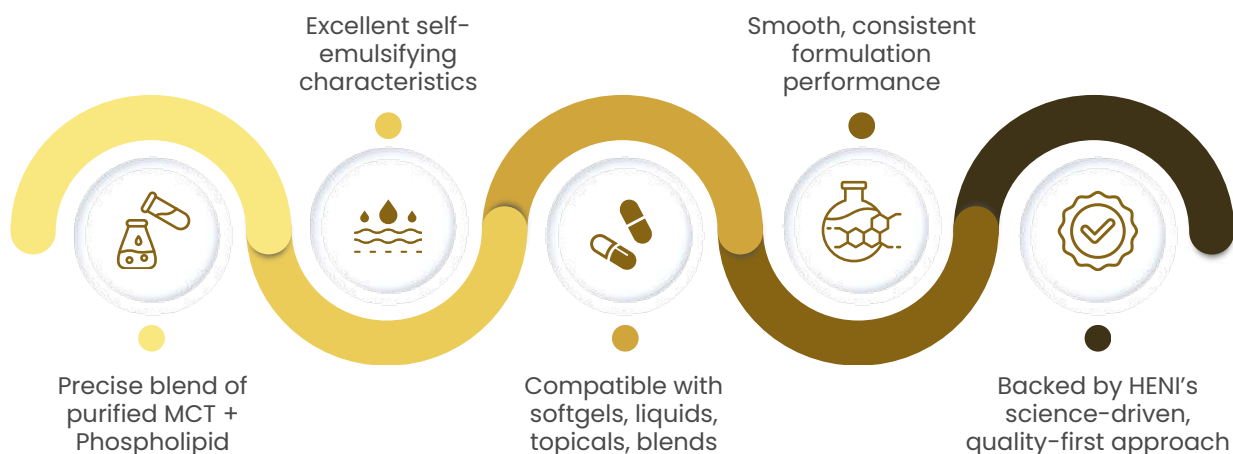

LipoMCT™, developed by HENI, is a next-generation lipid carrier engineered to enhance solubility, and bioavailability of active ingredients.

By integrating MCT with Phospholipid, LipoMCT™ delivers a versatile, high-performance matrix for nutraceutical and functional applications.

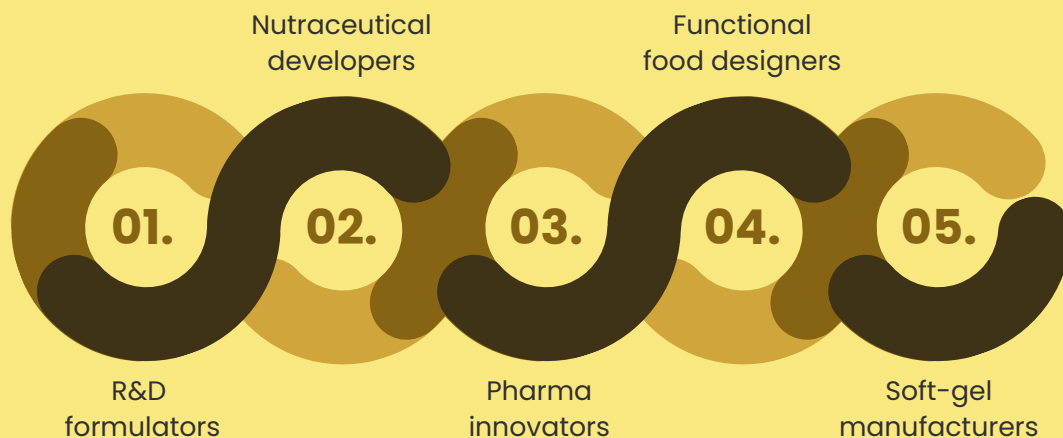

Core Benefits

01. Superior solubilization of lipophilic & poorly soluble actives
02. Enhanced absorption & bioavailability
03. Improved stability of sensitive ingredients
04. Clean, versatile formulation profile

Key Features

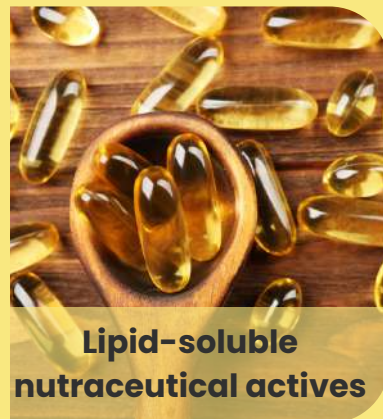

Ideal For

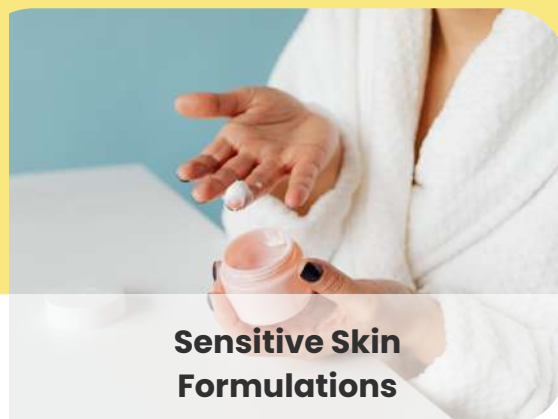

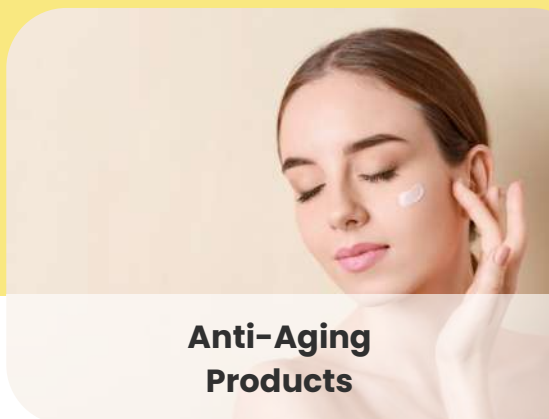

Applications

Nutraceuticals

Cosmetics & Topicals
