zONutraTM

Water-Dispersible PEA

MCT Oil & MCT Powder

Palmitoylethanolamide (PEA)

Oleoylethanolamide (OEA)

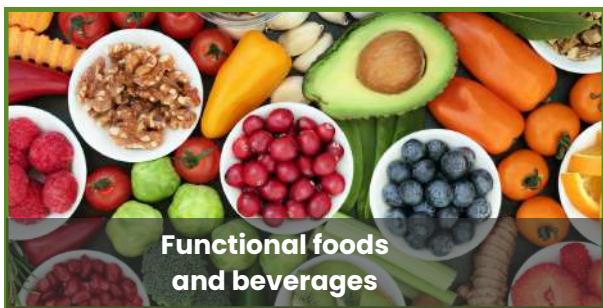

MCT Oil & MCT Powder

ZONutra-117

Our palm-based Medium Chain Triglycerides (MCTs) offer a clean, efficient energy source that supports metabolism, cognitive performance, and endurance. Refined from sustainably sourced RSPO-certified palm, our MCT ensures both traceability and environmental responsibility.

Applications:

Formulation Compatibility & Available Grades:

01.

MCT Oil (C8/C10 blends)

Available as Nutraceutical, USP/EP Pharmaceutical-Grades.

Compatible with: softgels, liquid formulations, RTDs, energy shots, ready-to-mix powders, high-fat blends.

02.

MCT Powder (Spray-dried, instantized)

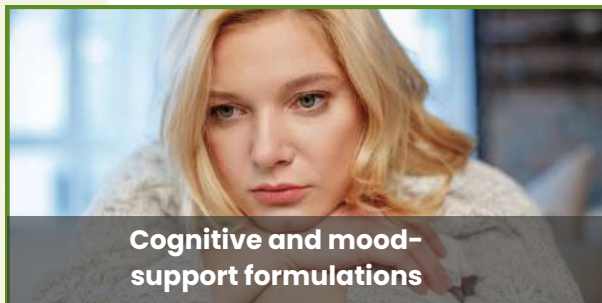

Ideal for ready-to-mix nutrition blends, instant beverages, meal replacements, and low-carb formulations.

Palmitoylethanolamide (PEA)

ZONPea™

ZONPea™ is a high-purity PEA, a naturally occurring bioactive lipid that modulates inflammation, pain, and neuroprotection. Naturally present in the body, PEA helps restore balance to inflammation and nerve signaling. Manufactured under HACCP, GMP, Kosher, RSPO approved plant, ensuring consistent purity, stability, and performance for wellness and nutraceutical formulations.

Applications:

Formulation Compatibility & Available Grade:

01.

Standard & micronized powder

Technical formulation support & documentation.

02.

Customization for targeted applications

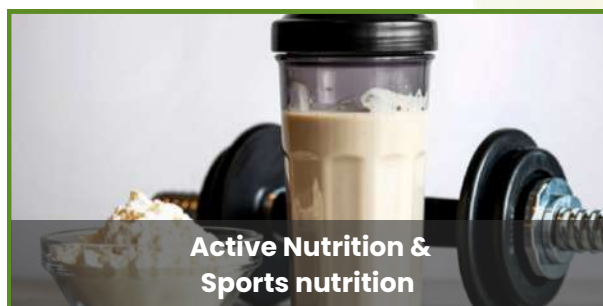

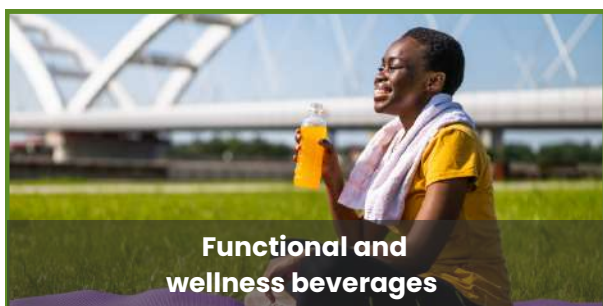

Compatible with capsules, tablets, functional powders, and softgels.

Water-Dispersible Palmitoylethanolamide

Aqueaux™ is HENI's proprietary water dispersible PEA that uses Aquasol Technology transforms PEA into water-dispersible, stable system for enhanced absorption and increased bioaccessibility. It enables next-generation product innovation in functional beverages and ready-to-mix formats.

Applications:

Formulation Compatibility & Available Grade:

01.

Dispersible powder created to instantly suspend in liquids

Designed for stick packs, sachets, RTD beverage shots, and active hydration blends and powder-compatible grades

02.

Customisation for targeted applications

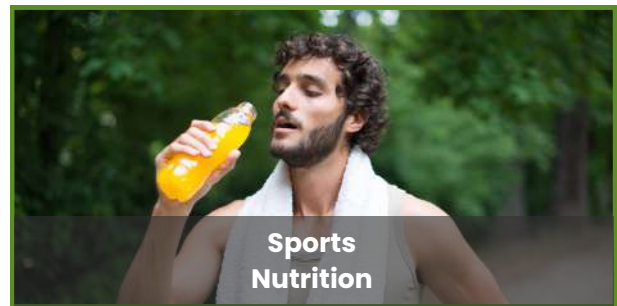

Transforms pure PEA into a functional, beverage-ready ingredient

Oleoylethanolamide (OEA)

ZONoea™

OEA as a lipid mediator and bioactive endogenous ethanolamide fatty acid which is structurally similar to the endocannabinoid system compounds. OEA acts as a key modulator in managing fat metabolism and appetite control; it may also offer therapeutic benefits for aging and Alzheimer's disease by improving lipid metabolism.

Applications:

Formulation Compatibility & Available Grade:

01.

Supplied as a fine powder

Suitable for tableting, Supports formulation of satiety mixes, metabolic blends, and functional snacks.

02.

Custom Solutions & Formats

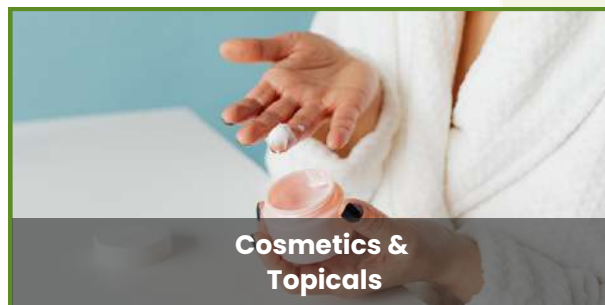

Technical formulation support & documentation.
Compatible with Powder, Tablets, Sachets, Capsules

Blend of MCT Oil & Phospholipid

LipoMCT™

LipoMCT™, developed by HENI, is a next-generation lipid carrier engineered to enhance solubility, and bioavailability of active ingredients. By integrating MCT with Phospholipid, LipoMCT™ delivers a versatile, high-performance matrix for nutraceutical and functional applications.

Applications:

Formulation Compatibility & Available Grade:

01.

Delivered as a ready-to-use liquid lipid carrier.

Enhances solubility and uptake of poorly bioavailable actives

02.

Compatible with fat-soluble actives, herbal extracts, vitamins (A, D, E, K)

Ideal for softgels, liquid-fills, syrups, emulsions, functional oils, and lipid-infusion blends

Advanced Nutraceutical Ingredients for a Healthier Tomorrow

ZONutra™

At HENI, our ZONutra™ portfolio embodies the synergy of science, innovation, and wellness.

We specialize in bioactive lipids, amides, and functional delivery systems designed to enhance nutrition and well-being from daily supplements to performance foods.

Every ZONutra™ ingredient is developed with precision, purity, and sustainability at its core, ensuring global compliance and superior functionality across nutraceutical applications.

Empowering Nutrition with Science

Every ZONutra™ ingredient reflects our commitment to innovation, traceability, and efficacy.

Partner with us!

We partner with companies worldwide to create nutraceutical products that deliver real, measurable health benefits, powered by science and responsibility.
